

Amendments to the Specification:

In the Specification, please delete the term --Description-- at page 1 line 1 before the title.

In the Specification, please amend the title at page 1 line 3, as follows:

~~SWITCHING BETWEEN COMMUNICATION SYSTEMS WITH CIRCUIT AND PACKET~~
SWITCHING A CALL JUMP SYSTEM, METHOD & APPARATUS

In the Specification, please add the section heading and paragraph at page 1 line 5, after the title, as follows:

--CROSS REFERENCE TO RELATED APPLICATIONS

This application is the US National Stage of International Application No. PCT/EP2004/052339, filed September 28, 2004 and claims the benefit thereof. The International Application claims the benefits of European application No. 03022177.4 EP filed September 30, 2003, both of the applications are incorporated by reference herein in their entirety.--

In the Specification, please add the section heading at page 1 line 5, after the newly added CROSS REFERENCE TO RELATED APPLICATIONS section, as follows:

--FIELD OF INVENTION--

In the Specification, please add the section heading at page 1 line 10, as follows:

--BACKGROUND OF THE INVENTION--

In the Specification, please amend the paragraph at page 1 lines 10-17, as follows:

In the field of packet oriented communication devices, what is lacking is the convenience for end users. Unlike in traditional telephone communication where the user simply lifts a hand receiver, packet oriented communication offers a variety of devices with which to access the packet network and to communicate with other users. Problematically, this is inconvenient for the end ~~usr~~user, who must decide which communication form to use when initiating a call.

In the Specification, please add the section heading at page 1 line 19, as follows:

--SUMMARY OF INVENTION--

In the Specification, please add the section heading at page 6 line 19, as follows:

--BRIEF DESCRIPTION OF THE DRAWINGS--

In the Specification, please amend the paragraph at page 6 lines 19-33 through page 7 lines 1-3, as follows:

The invention shall be described with reference to the following figures which are merely examples of the embodiments of the invention.

Figure 1 is a block diagram of the system of the present invention;

Figure 2 is a pictorial representation of the band divided into audio and video information of the present invention;

Figure 3 is a block diagram illustrating an alternate connection for the audio and combined audio and video; and

Figure 4 is a flow diagram of the process flow of the present invention[.]; and

Figure 5 is a flow diagram of the process flow for the protocol of the present invention.

In the Specification, please add the section heading at page 7 line 5, as follows:

--DETAILED DESCRIPTION OF INVENTION--
